Mental Patients Union Demands taken from the *Declaration of Intent of April 1973*

[Use to discuss what has and has not been achieved].

We Demand

1. The abolition of compulsory treatment i.e. we demand the effective right of patients to refuse any specific treatment.
2. The abolition of the right of any authorities to treat patients in the face of opposition of relatives or closest friends unless it is clearly shown that the patient of his own volition desires the treatment.
3. The abolition of irreversible psychiatric treatments (ECT, brain surgery, specific drugs)
4. Higher standards in the testing of treatments before use on us.
5. That patients be told what treatments they are receiving are experimental and should have the effective right to refuse to be experimented on.
6. That patients be told what treatments they are receiving and what the long-term effects are.
7. Also the abolition of isolation treatment (seclusion in locked side rooms, padded cells, etc.)
8. The right of any patient to inspect his case notes and the right to take legal action relating to the contents and consequences of them.
